

Ismail Kaiyrbek

High School Student |
Physics Olympiad Medalist

Motivated high school student passionate about theoretical physics, problem design, and research. Experienced in olympiad competitions and independent study.

CONTACT

Email: sonnyidal651@gmail.com

Address: Kazakhstan, Pavlodar

EDUCATION

Bilim-Innovation Lyceum, Pavlodar

High school student

- GPA: 4.58/5
- Focus: Physics and Mathematics
- Main award: Gold medalist of International Zhautykov Olympiad 2026

SKILLS

Technical

- LaTeX(advanced)
- Python(basic)

Scientific

- Theoretical modeling
- Mathematical derivation
- Physics problem design
- Independent research

Languages

- Kazakh
- Russian
- English
- Turkish

ACHIEVEMENTS

Olympiads

- Gold medalist of International Zhautykov Olympiad 2026
- Bronze medalist of Kazakhstan National Olympiad 2026
- Silver medalist of Kazakhstan National Olympiad 2025
- Gold medalist of Kazakhstan Bilim Olympiad Senior 2025
- Silver medalist of Kazakhstan Bilim Olympiad Senior (for upper grade) 2024
- Winner of Regional stage of Kazakhstan National Olympiad 2025
- Silver medalist of Regional stage of Kazakhstan National Olympiad (for upper grade) 2024
- Silver medalist of Regional stage of Kazakhstan National Junior Olympiad 2024
- Winner of Pavlodar Junior Olympiad 2023
- Silver medalist of the Gleb Petrovsky Memorial Physics Olympiad 2025
- Bronze medalist of Kazakhstan Bilim Olympiad Junior* 2024
- Bronze medalist of Regional stage of Kazakhstan National Junior Olympiad 2023
- Silver medalist of Kazakhstan Bilim Olympiad Junior* 2023

*among Bilim-innovation lyceums

**EXTRACURRICULAR /
ACADEMIC
EXPERIENCE**

Physics Hub — Team Member (2025–2026)

Content developer

- Create and review olympiad-level physics problems
- Collaborated with educators and organizations to develop physics outreach materials and organized international olympiad.

Edlight Academy — Physics Olympiad Camps (2023–2026)

- Participated in intensive olympiad training sessions in mechanics, thermodynamics, electromagnetism, optics, quantum mechanics.
- Earned recognition and certificates for strong performance.

Physics Mentorship — Bilim-Innovation Lyceum, Pavlodar (2023–2026)

Mentor for Junior Students

- Guided younger students in preparation for physics olympiads.
- Helped explain theoretical concepts and problem-solving techniques.
- Supported development of interest in physics through collaborative sessions.

Independent Research — Theoretical and Applied Physics (2025–2026)

- Developed original physics problems and theoretical models related to fluid pressure and magnetic fields.
- Applied classical mechanics and electromagnetism principles to analyze complex systems.
- Combined theoretical derivations with intuitive modeling approaches.

Team Captain — Almaty Physics Battles (2024–2025)

- Led a team of students from multiple Bilim-Innovation Lyceums at national-level physics tournaments.
- Developed problem-solving strategies and coordinated theoretical discussions.

Contributor – Savchenko Solutions (2025–2026)

- Worked on creating and verifying 90+ olympiad-level physics problem solutions of mechanics, hydromechanics, electromagnetism.
- Collaborated with international online community of physics enthusiasts.

Private Tutor — Mathematics & Natural Sciences (2024)

- Provided personalized tutoring in algebra, geometry, physics, and chemistry to a middle school student with learning difficulties.
- Helped improve academic performance from failing grades to top marks through consistent support and adaptive teaching.
- Developed strong communication, patience, and mentoring skills
